**S**uper Seamless Steel Siding is manufactured on site with 100% Canadian Defasco steel. Modern day steel is the most recycled product available today. With using steel siding you are helping the future generations by using a product that will stand the test of time and can easily be recycled in the future.

With the harsh Canadian climate the investment into a premium exterior finish is even more important ! Super Seamless Steel Siding does not let mother nature in! With no joins or unsightly splices there is considerable less chance of wind to get behind it. This not only keeps your house warmer but also prevents bugs and moisture from damaging your home. You will not find a better exterior finish than:
