

Tribute To Competitors

**"Our competitors do more for us
than our friends.**

**Our friends are too polite to
point out our weaknesses
but our competitors are efficient, diligent,
attentive and would take our
business
away from us if they could.**

**They keep us alert and make us search
for ways to improve our products
and services.**

**If we had no competitors we would be lazy,
incompetent, inattentive.**

**We need the discipline they enforce upon
us !**

We salute our competitors.

They have been good to us.

God bless them all!!"
